(5) Annualized.

(6) Does not include the expenses of other investment companies in which the Fund invests.

(7) Recognition of investment income by the Fund is affected by the timing and declaration of dividends by the underlying investment companies in which the Fund invests.

(8) Portfolio turnover rate excludes portfolio securities received or delivered as a result of processing capital share transactions in Creation Units. (Note 7)

MAIN ETFS NOTES TO FINANCIAL STATEMENTS October 31, 2024

1. ORGANIZATION

The Main Sector Rotation ETF, the Main Thematic Innovation ETF and the Main International ETF (each a "Fund" and collectively the "Funds") are each a diversified series of Northern Lights Fund Trust IV (the "Trust"), a Trust organized under the laws of the State of Delaware on June 2, 2015, and registered under the Investment Company Act of 1940, as amended (the "1940 Act"), as open-end management investment companies. The Main Sector Rotation ETF commenced operations on September 5, 2017. The Main Thematic Innovation ETF commenced operations on January 28, 2021. The Main International ETF commenced operations on December 1, 2022. The Main Sector Rotation ETF and the Main International ETF are "fund of funds" in that each Fund will generally invest in other investment companies.

The Funds' investment objectives are as follows:

Main Sector Rotation ETF – seeks to outperform the S&P 500 in rising markets while limiting losses during periods of decline.

Main Thematic Innovation ETF – seeks to outperform the MSCI ACWI Index in rising markets while limiting losses during periods of decline.

Main International ETF – seeks to outperform the MSCI All Country World ex-USA Index® over a full market cycle while maintaining below-benchmark risk.

2. SIGNIFICANT ACCOUNTING POLICIES

The following is a summary of significant accounting policies followed by the Funds in preparation of their financial statements. These policies are in conformity with generally accepted accounting principles in the United States of America ("GAAP"). The preparation of financial statements requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of increase and decrease in net assets from operations during the reporting period. Actual results could differ from those estimates. The Funds are investment companies and accordingly follow the investment company accounting and reporting guidance of the Financial Accounting Standards Board ("FASB") Accounting Standards Codification Topic 946 "*Financial Services – Investment Companies*".

Security Valuation - Securities listed on an exchange are valued at the last reported sale price at the close of the regular trading session of the exchange on the business day the value is being determined, or in the case of securities listed on NASDAQ at the NASDAQ Official Closing Price ("NOCP"). In the absence of a sale, such securities shall be valued at the mean between the current bid and ask prices on the day of valuation. Options contracts listed on a securities exchange or board of trade for which market quotations are readily available shall be valued at the last quoted sales price or, in the absence of a sale, at the mean between the current bid and ask prices on the day of valuation. Equity option contracts not listed on a securities exchange or board of trade for which over-the-counter market quotations are readily available shall be valued at the mean between the current bid and ask prices on the day of valuation. Index options shall be valued at the mean between the current bid and ask prices on the day of valuation. Investments in open-end investment companies are valued at net asset value, including the short-term investment currently held. Debt securities (other than short-term obligations) are valued each day by an independent pricing service approved by the Board of Trustees (the "Board") based on methods which include consideration of: yields or prices of securities of comparable quality, coupon, maturity and type, indications as to values from dealers, and general market conditions or market quotations from a major market maker in the securities. Short-term debt obligations, having 60 days or less remaining until maturity at time of purchase, may be valued at amortized cost.

The Fund may hold investments, such as private investments, interests in commodity pools, other non-traded securities or temporarily illiquid securities, for which market quotations are not readily available or are determined to be unreliable. These investments will be valued using the "fair value" procedures approved by the Board. The

NOTES TO FINANCIAL STATEMENTS (Continued)

October 31, 2024

Board has delegated execution of these procedures to the adviser as its valuation designee (the "Valuation Designee"). The Board may also enlist third party consultants such as a valuation specialist at a public accounting firm, valuation consultant or financial officer of a security issuer on an as-needed basis to assist the Valuation Designee in determining a security-specific fair value. The Board is responsible for reviewing and approving fair value methodologies utilized by the Valuation Designee, which approval shall be based upon whether the Valuation Designee followed the valuation procedures established by the Board.

Valuation of Underlying Investment Companies - The Funds may invest in portfolios of open-end or closedend investment companies (the "Underlying Funds"). Mutual funds are valued at their respective net asset values as reported by such investment companies. Exchange-traded funds ("ETFs") are valued at the lasted reported sales price or official closing price. Open-end investment companies value securities in their portfolios for which market quotations are readily available at their market values (generally the last reported sale price) and all other securities and assets at their fair value using the methods established by the board of directors of the open-end funds. The shares of many closed-end investment companies and ETFs, after their initial public offering, frequently trade at a price per share, which is different than the net asset value per share. The difference represents a market premium or market discount of such shares. There can be no assurances that the market discount or market premium on shares of any closed-end investment company or ETF purchased by the Funds will not change.

Fair Valuation Process - Applicable investments are valued by the Valuation Designee pursuant to valuation procedures established by the Board. For example, fair value determinations are required for the following securities: (i) securities for which market quotations are insufficient or not readily available on a particular business day (including securities for which there is a short and temporary lapse in the provision of a price by the regular pricing source); (ii) securities for which, in the judgment of the Valuation Designee, the prices or values available do not represent the fair value of the instrument; factors which may cause the Valuation Designee to make such a judgment include, but are not limited to, the following: only a bid price or an asked price is available; the spread between bid and asked prices is substantial; the frequency of sales; the thinness of the market; the size of reported trades; and actions of the securities markets, such as the suspension or limitation of trading; (iii) securities determined to be illiquid; and (iv) securities with respect to which an event that will affect the value thereof has occurred (a "significant event") since the closing prices were established on the principal exchange on which they are traded, but prior to a Fund's calculation of its net asset value. Specifically, interests in commodity pools or managed futures pools are valued on a daily basis by reference to the closing market prices of each futures contract or other asset held by a pool, as adjusted for pool expenses. Restricted or illiquid investments, such as private investments or non-traded securities are valued based upon the current bid for the security from two or more independent dealers or other parties reasonably familiar with the facts and circumstances of the security (who should take into consideration all relevant factors as may be appropriate under the circumstances). If a current bid from such independent dealers or other independent parties is unavailable, the Valuation Designee shall determine, the fair value of such security using the following factors: (i) the type of security; (ii) the cost at date of purchase: (iii) the size and nature of the Fund's holdings; (iv) the discount from market value of unrestricted securities of the same class at the time of purchase and subsequent thereto; (v) information as to any transactions or offers with respect to the security; (vi) the nature and duration of restrictions on disposition of the security and the existence of any registration rights; (vii) how the yield of the security compares to similar securities of companies of similar or equal creditworthiness; (viii) the level of recent trades of similar or comparable securities; (ix) the liquidity characteristics of the security; (x) current market conditions; and (xi) the market value of any securities into which the security is convertible or exchangeable.

The Funds utilize various methods to measure the fair value of its investments on a recurring basis. GAAP establishes a hierarchy that prioritizes inputs to valuation methods. The three levels of input are:

Level 1 – Unadjusted quoted prices in active markets for identical assets and liabilities that the Funds have the ability to access.

NOTES TO FINANCIAL STATEMENTS (Continued)

October 31, 2024

Level 2 – Observable inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly or indirectly. These inputs may include quoted prices for the identical instrument in an inactive market, prices for similar instruments, interest rates, prepayment speeds, credit risk, yield curves, default rates and similar data.

Level 3 – Unobservable inputs for the asset or liability, to the extent relevant observable inputs are not available, representing the Funds' own assumptions about the assumptions a market participant would use in valuing the asset or liability, and would be based on the best information available.

The availability of observable inputs can vary from security to security and is affected by a wide variety of factors, including, for example, the type of security, whether the security is new and not yet established in the marketplace, the liquidity of markets, and other characteristics particular to the security. To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised in determining fair value is greatest for instruments categorized in Level 3.

The inputs used to measure fair value may fall into different levels of the fair value hierarchy. In such cases, for disclosure purposes, the level in the fair value hierarchy within which the fair value measurement falls in its entirety, is determined based on the lowest level input that is significant to the fair value measurement in its entirety.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The following tables summarize the inputs used as of October 31, 2024 for the Funds' investments measured at fair value:

Assets		Level 1	Level 2		L	evel 3		Total
Exchange-Traded Funds		\$ 1,843,543,247	\$	-	\$		-	\$ 1,843,543,247

Main Sector Rotation ETF

* Refer to the Schedule of Investments for industry classification.

The Funds did not hold any Level 3 securities during the period.

Option Transactions – When a Fund writes a call option, an amount equal to the premium received is included in the Statements of Assets and Liabilities as a liability. The amount of the liability is subsequently marked-tomarket to reflect the current market value of the option. If an option expires on its stipulated expiration date or if a Fund enters into a closing purchase transaction, a gain or loss is realized. If a written call option is exercised, a gain or loss is realized for the sale of the underlying security and the proceeds from the sale are increased by the premium originally received. As writer of an option, a Fund has no control over whether the option will be exercised and, as a result, retains the market risk of an unfavorable change in the price of the security underlying the written option. The Main Sector Rotation ETF writes options with the objective of generating income by way of cash premiums received from the written options.

NOTES TO FINANCIAL STATEMENTS (Continued)

October 31, 2024

The Funds may purchase put and call options. A call option on a security is a contract that gives the holder of the option, in return for a premium, the right, but not the obligation, to buy from the writer of the option the security underlying the option at a specified exercise or "strike" price by or before the contract's expiration. Put options are purchased to hedge against a decline in the value of securities held in the Funds' portfolios. If such a decline occurs, the put options will permit the Funds to sell the securities underlying such options at the exercise price, or to close out the options at a profit. The premium paid for a put or call option plus any transaction costs will reduce the benefit, if any, realized by the Funds upon exercise of the option, and, unless the price of the underlying security rises or declines sufficiently, the option may expire worthless to the Funds. In addition, in the event that the price of the security in connection with which an option was purchased moves in a direction favorable to the Funds, the benefits realized by the Funds as a result of such favorable movement will be reduced by the amount of the premium paid for the option, there is minimal counterparty risk to the Funds since these options are exchange traded and the exchange's clearinghouse, as counterparty to all exchange traded options, guarantees against a possible default.

Exchange Traded Funds - The Funds may invest in ETFs. ETFs are a type of fund bought and sold on a securities exchange. An ETF trades like common stock and represents a portfolio of securities. The Funds may purchase an ETF to gain exposure to a portion of the U.S. or a foreign market. The risks of owning an ETF generally reflect the risks of owning the underlying securities they are designed to track, although the lack of liquidity on an ETF could result in it being more volatile. Additionally, ETFs have fees and expenses that reduce their value.

Derivatives Risk - The Funds' use of derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities and other traditional investments. These risks include (i) the risk that the counterparty to a derivative transaction may not fulfill its contractual obligations; (ii) risk of mispricing or improper valuation; and (iii) the risk that changes in the value of the derivative may not correlate perfectly with the underlying asset, rate or index. Derivative prices are highly volatile and may fluctuate substantially during a short period of time. Such prices are influenced by numerous factors that affect the markets, including, but not limited to: changing supply and demand relationships; government programs and policies; national and international political and economic events, changes in interest rates, inflation and deflation and changes in supply and demand relationships. Trading derivative instruments involves risks different from, or possibly greater than, the risks associated with investing directly in securities including:

Leverage and Volatility Risk: Derivative contracts ordinarily have leverage inherent in their terms. The low margin deposits normally required in trading derivatives, including options, permit a high degree of leverage. Accordingly, a relatively small price movement may result in an immediate and substantial loss to the Funds. The use of leverage may also cause the Funds to liquidate portfolio positions when it would not be advantageous to do so in order to satisfy its obligations or to meet collateral segregation requirements. The use of leveraged derivatives can magnify the Funds' potential for gain or loss and, therefore, amplify the effects of market volatility on the Funds' share price.

Options Risk: There are risks associated with the sale and purchase of call and put options. As a seller (writer) of a put option, the Funds will tend to lose money if the value of the reference index or security falls below the strike price. As the seller (writer) of a call option, the Funds may experience lower returns if the value of the reference index or security rises above the strike price.

Index Call Option Risk: Because the exercise of index options is settled in cash, sellers of index call options, such as the Funds, cannot provide in advance for their potential settlement obligations by acquiring and holding the underlying securities. The Funds bear a risk that the value of the securities held by the Funds will vary from the value of the index and relative to the written index call option positions. Accordingly, the Funds may incur losses on the index call options that it has sold that exceed gains on other securities in its portfolio. The value of index options written by the Funds, which will be priced daily, will be affected by changes in the value of and dividend rates of the underlying common stocks in the

NOTES TO FINANCIAL STATEMENTS (Continued)

October 31, 2024

index, changes in the actual or perceived volatility of the stock market and the remaining time to the options' expiration. The value of the index options also may be adversely affected if the market for the index options becomes less liquid or smaller.

As a writer of an index call option, a Fund forgoes, during the option's life, the opportunity to profit from increases in the market value of the index underlying the call option above the sum of the premium and the strike price of the option, but will retain the risk of loss should the market value of the index underlying the call option decline. The purchaser of the index call option has the right to any appreciation in the value of the underlying index over the exercise price upon the exercise of the call option or the expiration date.

Security Transactions and Related Income – Security transactions are accounted for on the trade date. Interest income is recognized on an accrual basis. Discounts are accreted and premiums are amortized on securities purchased over the lives of the respective securities using the effective yield method. Dividend income and expense are recorded on the ex-dividend date. Realized gains or losses from sales of securities are determined by comparing the identified cost of the security lot sold with the net sales proceeds.

Distributions to Shareholders – Dividends from net investment income, if any, are declared and paid quarterly. Distributable net realized capital gains, if any, are declared and distributed annually. Dividends from net investment income and distributions from net realized gains are determined in accordance with federal income tax regulations, which may differ from GAAP. These "book/tax" differences are considered either temporary (e.g., deferred losses, capital loss carryforwards, etc.) or permanent in nature. To the extent these differences are permanent in nature, such amounts are reclassified within the composition of net assets based on their federal tax-basis treatment; temporary differences do not require reclassification. Any such reclassifications will have no effect on net assets, results of operations, or net asset values per share of the Funds. Dividends that represent long term capital gain distributions from underlying investments are reclassified out of dividend income and presented separately for financial reporting purposes. The Funds hold certain investments which pay dividends to their shareholders based upon available funds from operations. Distributions received from investments in securities that represent a return of capital or long-term capital gains are recorded as a reduction of the cost of investments or as a realized gain, respectively.

Federal Income Taxes – The Funds intend to continue to comply with the requirements of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no provision for federal income tax is required.

The Funds recognize the tax benefits of uncertain tax positions only where the position is "more likely than not" to be sustained assuming examination by tax authorities. Management has analyzed the Funds' tax positions and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on returns filed for open tax years ended May 31, 2021, to October 31, 2023, or expected to be taken in the Funds' October 31, 2024 year-end tax returns. The Funds identify their major tax jurisdictions as U.S. Federal, Ohio and foreign jurisdictions where the Funds make significant investments. The Funds recognize interest and penalties, if any, related to unrecognized tax benefits as income tax expense in the Statements of Operations. During the year, the Funds did not incur any interest or penalties. The Funds are not aware of any tax positions for which it is reasonably possible that the total amounts of unrecognized tax benefits will change materially in the next twelve months.

Expenses – Expenses of the Trust that are directly identifiable to a specific fund are charged to that fund. Expenses, which are not readily identifiable to a specific fund, are allocated in such a manner as deemed equitable (as determined by the Board), taking into consideration the nature and type of expense and the relative sizes of the funds in the Trust.

NOTES TO FINANCIAL STATEMENTS (Continued)

October 31, 2024

Indemnification – The Trust indemnifies its officers and trustees for certain liabilities that may arise from the performance of their duties to the Trust. Additionally, in the normal course of business, the Funds enter into contracts that contain a variety of representations and warranties and which provide general indemnities. The Funds' maximum exposure under these arrangements is unknown, as this would involve future claims that may be made against the Funds that have not yet occurred. However, based on experience, the risk of loss due to these warranties and indemnities appears to be remote.

Cash and Cash Equivalents – Cash and cash equivalents are held with a financial institution and include demand deposits and short-term, liquid investments with an original maturity of three months or less. The assets of the Funds may be placed in deposit accounts at U.S. banks and such deposits generally exceed Federal Deposit Insurance Corporation ("FDIC") insurance limits. The FDIC insures deposit accounts up to \$250,000 for each accountholder. The counterparty is generally a single bank rather than a group of financial institutions; thus there may be a greater counterparty credit risk. The Funds place deposits only with those counterparties which are believed to be creditworthy and there has been no history of loss.

Securities Lending Risk – The Funds may lend portfolio securities to institutions, such as banks and certain broker-dealers. The Funds may experience a loss or delay in the recovery of its securities if the borrowing institution breaches its agreement with the Funds (see additional information at Note 8).

3. INVESTMENT TRANSACTIONS

For the year ended October 31, 2024, cost of purchases and proceeds from sales of portfolio securities (excluding in-kind transactions and short-term investments), amounted to the following:

	 Purchases	 Sales
Main Sector Rotation ETF	\$ 698,230,687	\$ 348,217,635
Main Thematic Innovation ETF	55,639,168	48,998,443
Main International ETF	79,604,964	41,609,035

For the year ended October 31, 2024, cost of purchases and proceeds from sales of portfolio securities for in-kind transactions, amounted to the following:

	 Purchases	 Sales
Main Sector Rotation ETF	\$ 294,211,337	\$ 394,872,939
Main Thematic Innovation ETF	102,092,053	86,264,758
Main International ETF	13,955,594	49,001,728

4. INVESTMENT ADVISORY AGREEMENT AND TRANSACTIONS WITH RELATED PARTIES

Main Management ETF Advisors, LLC serves as the investment adviser (the "Adviser") to the Funds. Pursuant to an investment advisory agreement with the Trust, on behalf of each Fund, the Adviser, under the oversight of the Board, oversees the daily operations of the Funds, manages the Funds' portfolios, and supervises the performance of administrative and professional services provided by others. As compensation for its services and the related expenses borne by the Adviser, the Funds pay the Adviser a management fee, computed and accrued daily and paid monthly, at an annual rate of 0.50%, 0.65%, and 0.55% of the average daily net assets of the Main Sector Rotation ETF, Main Thematic Innovation ETF, and Main International ETF, respectively.

For the year ended October 31, 2024, the advisory fees incurred by each of the Funds were as follows:

	Ac	lvisory Fee
Main Sector Rotation ETF	\$	8,176,143
Main Thematic Innovation ETF		829,045
Main International ETF		629,731

NOTES TO FINANCIAL STATEMENTS (Continued)

October 31, 2024

The Adviser has contractually agreed to reduce its fees and/or absorb expenses of the Funds, until at least February 28, 2031 for Main Sector Rotation ETF and Main Thematic Innovation ETF and until at least February 28, 2025 for Main International ETF, to ensure that total annual fund operating expenses after fee waiver and/or reimbursement (exclusive of any front-end or contingent deferred loads, taxes, brokerage fees and commissions, borrowing costs (such as interest and dividend expense on securities sold short), acquired fund fees and expenses, fees and expenses associated with investments in other collective investment vehicles or derivative instruments (including for example option and swap fees and expenses), or extraordinary expenses such as litigation (which may include indemnification of Fund officers and Trustees, contractual indemnification of Fund service providers (other than the Adviser)) will not exceed 0.65%, 0.99%, and 0.74% of the average daily net assets of the Main Sector Rotation ETF, Main Thematic Innovation ETF, and Main International ETF, respectively. These fee waivers and expense reimbursements are subject to possible recoupment by the Adviser from the Funds in future years (within the three years from the time the fees were waived or reimbursed), if such recoupment can be achieved within the lesser of the foregoing expense limits or those in place at the time of recapture. This agreement may be terminated only by the Board on 60 days' written notice to the Adviser. Effective February 28, 2024 the expense limitation for the Main International ETF increased from 0.64% to 0.74% of the Fund's average daily net assets. During the year ended October 31, 2024, the total amount of advisory fees waived for the Main International ETF was \$37,935 which are subject to recapture until October 31, 2027. The total amount of previously waived fees by the Main International ETF are \$107,209 which are subject to recapture until October 31, 2026. During the year ended October 31, 2024, the Main Sector Rotation ETF and the Main Thematic Innovation ETF did not waive any advisory fees. As of October 31, 2024, there are no previously waived advisory fees subject to recapture for the Main Sector Rotation ETF and Main Thematic Innovation ETF.

Distributor – The distributor of the Funds is Northern Lights Distributors, LLC (the "Distributor"). The Board has adopted, on behalf of the Funds, the Trust's Master Distribution and Shareholder Servicing Plan as amended (the "Plan"), pursuant to Rule 12b-1 under the 1940 Act, to pay for certain distribution activities and shareholder services related to Fund shares. Under the Plan, the Funds may pay 0.25% per year of the average daily net assets of each Fund's shares for such distribution and shareholder service activities. As of October 31, 2024, the Plan has not been activated.

The Distributor acts as the Funds' principal underwriter in a continuous public offering of each Fund's shares and is an affiliate of Ultimus Fund Solutions, LLC.

In addition, certain affiliates of the Distributor provide services to the Funds as follows:

<u>Ultimus Fund Solutions, LLC ("UFS")</u> – An affiliate of the Distributor, provides administration and fund accounting services to the Trust. Pursuant to separate servicing agreements with UFS, the Funds pay UFS customary fees for providing administration and fund accounting services to the Funds as shown in the Statements of Operations. Certain officers of the Trust are also officers of UFS, and are not paid any fees directly by the Funds for serving in such capacities.

<u>Northern Lights Compliance Services, LLC ("NLCS")</u> – NLCS, an affiliate of UFS and the Distributor, provides a Chief Compliance Officer to the Trust, as well as related compliance services, pursuant to a consulting agreement between NLCS and the Trust. Under the terms of such agreement, NLCS receives customary fees from the Funds which are included in the compliance officer fees in the Statements of Operations.

<u>Blu Giant, LLC ("Blu Giant")</u> – Blu Giant, an affiliate of UFS and the Distributor, provides EDGAR conversion and filing services as well as print management services for the Funds on an ad-hoc basis. For the provision of these services, Blu Giant receives customary fees from the Funds which are included in the printing and postage expenses in the Statements of Operations.

NOTES TO FINANCIAL STATEMENTS (Continued)

October 31, 2024

5. AGGREGATE UNREALIZED APPRECIATION AND DEPRECIATION – TAX BASIS

At October 31, 2024, the aggregate cost for federal tax purposes, which differs from fair value by net unrealized appreciation (depreciation) of securities, are as follows:

	Tax Cost	Gross Unrealized Appreciation	Gross Unrealized Depreciation	Net Unrealized Appreciation (Depreciation)
Main Sector Rotation ETF	\$ 1,610,847,751	\$ 477,414,941	\$ (25,397,547)	\$ 452,017,394
Main Thematic Innovation ETF	\$ 151,364,643	\$ 15,967,145	\$ (10,938,799)	\$ 5,028,346
Main International ETF	\$ 119,371,785	\$ 10,165,834	\$ (1,990,995)	\$ 8,174,839

6. DISTRIBUTIONS TO SHAREHOLDERS AND TAX COMPONENTS OF CAPITAL

The tax character of Funds' distributions for the period ended October 31, 2024, and October 31, 2023 was as follows:

	For	the period en					
		Ordinary	Long	J-Term	Re	turn	
Portfolio		Income	Capita	I Gains	of C	apital	 Total
Main Sector Rotation ETF	\$	6,116,485	\$	-	\$	-	\$ 6,116,485
Main Thematic Innovation ETF		-		-		-	\$ -
Main International ETF		2,034,833		-		-	\$ 2,034,833

	Foi	the period en					
		Ordinary	Long	J-Term	Re	eturn	
Portfolio		Income	Capita	al Gains	of C	apital	 Total
Main Sector Rotation ETF	\$	10,057,090	\$	-	\$	-	\$ 10,057,090
Main Thematic Innovation ETF		159,510		-		-	\$ 159,510
Main International ETF		1,913,795		-		-	\$ 1,913,795

As of October 31, 2024, the components of accumulated earnings/(deficit) on a tax basis were as follows:

	Undistributed Ordinary		Ordinary					istributed ng-Term	Post	October Loss and	(Capital Loss Carry	в	Other ook/Tax	Unrealized Appreciation/		Total Accumulated
Portfolio		Income	Capi	tal Gains	La	te Year Loss		Forwards	Di	fferences	(Depreciation)	Ear	rnings/(Deficits)				
Main Sector Rotation ETF	\$	6,693,948	\$	-	\$	-	\$	(46,089,648)	\$	(509,517)	452,017,394	\$	412,112,177				
Main Thematic Innovation ETF		-		-		-		(34,862,381)		-	5,028,346		(29,834,035)				
Main International ETF		1,409,113		-		-		(2,434,176)		-	8,174,839		7,149,776				

The difference between book basis and tax basis accumulated net investment income, unrealized appreciation (depreciation) and accumulated net realized loss from investments is primarily attributable to the mark-to-market on open passive foreign investment companies, the tax deferral of wash sales, and adjustments for C-Corporation return of capital distributions and straddles. In addition, the amount listed under other book/tax differences for the Funds is primarily attributable to the tax deferral of losses on straddles.

At October 31, 2024, the Funds had a capital loss carry forward for federal income tax purposes available to offset future capital gains, along with capital loss carryforwards utilized as follows:

	-								
Portfolio		Short-Term	L	.ong-Term		Total	CLCF Utilized		
Main Sector Rotation ETF	\$	37,376,026	\$	8,713,622	\$	46,089,648	\$	5,762,412	
Main Thematic Innovation ETF		12,105,164		22,757,217		34,862,381		-	
Main International ETF		2,434,176		-		2,434,176		-	

NOTES TO FINANCIAL STATEMENTS (Continued)

October 31, 2024

Permanent book and tax differences, primarily attributable to tax adjustments for realized gains (losses) on in-kind redemptions, and the book/tax basis treatment of net operating losses, resulted in reclassification for the year ended October 31, 2024 as follows:

	Paid	
	In	Accumulated
Portfolio	Capital	Earnings (Losses)
Main Sector Rotation ETF	\$ 98,230,318	\$ (98,230,318)
Main Thematic Innovation ETF	16,350,355	(16,350,355)
Main International ETF	5,100,045	(5,100,045)

7. CAPITAL SHARE TRANSACTIONS

Shares are not individually redeemable and may be redeemed by the Funds at net asset value only in large blocks known as "Creation Units." Shares are created and redeemed by the Main Sector Rotation ETF only in Creation Unit size aggregations of 50,000 shares. Shares are created and redeemed by the Main Thematic Innovation ETF and Main International ETF only in Creation Unit size aggregations of 10,000 shares. Only Authorized Participants are permitted to purchase or redeem Creation Units from the Funds. An Authorized Participant is either (i) a broker-dealer or other participant in the clearing process through the Continuous Net Settlement System of the National Securities Clearing Corporation or (ii) a DTC participant and, in each case, must have executed a Participant Agreement with the Distributor. Such transactions are generally permitted on an in-kind basis, with a balancing cash component to equate the transaction to the net asset value per share of the Funds on the transaction date. Cash may be substituted equivalent to the value of certain securities generally when they are not available in sufficient quantity for delivery, not eligible for trading by the Authorized Participant or as a result of other market circumstances. In addition, the Funds may impose transaction fees on purchases and redemptions of Funds shares to cover the custodial and other costs incurred by the Funds in effecting trades. A fixed fee payable to the custodian may be imposed on each creation and redemption transaction regardless of the number of Creation Units involved in the transaction ("Fixed Fee"). Purchases and redemptions of Creation Units for cash or involving cash-in-lieu are required to pay an additional variable charge to compensate the Funds and its ongoing shareholders for brokerage and market impact expenses relating to Creation Unit transactions ("Variable Charge," and together with the Fixed Fee, the "Transaction Fees"). Transactions in capital shares for the Funds are disclosed in the Statements of Changes in Net Assets. For the year ended October 31, 2024, the fixed and variable fees were as follows:

	Fix	ed Fees	Variable Fees		
Main Sector Rotation ETF	\$	19,200	\$	-	
Main Thematic Innovation ETF	\$	6,800	\$	-	
Main International ETF	\$	2,600	\$	-	

The Transaction Fees for the Funds are listed in the table below:

Fixed Fee	Variable Charge
\$200	2.00%*
* The measure Transaction Fe	a many har was to 2,000/ of the amount invest

* The maximum Transaction Fee may be up to 2.00% of the amount invested.

8. SECURITIES LENDING

Under an agreement (the "Securities Lending Agreement") with Brown Brothers Harriman ("BBH"), each Fund can lend its portfolio securities to brokers, dealers and other financial institutions approved by the Board to earn additional income. The securities lending agreement requires that loans are collateralized at all times in an amount equal to at least 100% of the value of any loaned securities at the time of the loan. Each Fund receives compensation in the form of fees. The amount of fees depends on a number of factors including the type of security and length of the loan. Each Fund continues to receive interest payments or dividends on the securities loaned during the borrowing period. Gain or loss in the fair value of securities loaned that may occur during the

NOTES TO FINANCIAL STATEMENTS (Continued)

October 31, 2024

term of the loan will be for the account of each Fund. Each Fund has the right under the terms of the securities lending agreement to recall the securities from the borrower on demand. The cash collateral is held by the custodian in accordance with the custody agreement. Each Fund could experience delays in recovering their securities and possible loss of income or value if the borrower fails to return the borrowed securities, although the Funds are indemnified from this risk by contract with the securities lending agent.

The following table is a summary of the Funds' securities loaned and related collateral, which are subject to a netting agreement as of November 30, 2022:

				the Stateme	nts Not Offset in ent of Assets & bilities	
	Gross Amounts of Recognized Assets	Gross Amounts Offset in the Statement of Assets & Liabilities	Net Amounts of Assets Presented in the Statement of Assets & Liabilities	Financial Instruments	Cash Collateral Pledged (1)	Net Amount
Main Sector Rotation ETF Main Thematic Innovation ETF Main International ETF	\$209,648,376 \$16,966,434 \$17,352,747	\$- \$- \$-	\$209,648,376 \$16,966,434 \$17,352,747	\$ - \$ - \$ -	\$ 209,648,376 \$ 16,966,434 \$ 17,352,747	\$- \$- \$-

(1) The amount is limited to the loaned securities and accordingly, does not include excess collateral

The following table breaks out the Funds' securities lending transactions accounted for as secured borrowings with cash collateral of overnight and continuous maturities as of:

		Overnight and	Up to		Greater than	
	Collateral	Continuous	30 Days	30-90 days	90 days	Total
Main Sector Rotation ETF	Fidelity Money Market Government Portfolio	\$ 219,321,898	\$ -	\$ -	\$ -	\$ 219,321,898
Main Thematic Innovation ETF	Fidelity Money Market Government Portfolio	18,504,107	-	-	-	18,504,107
Main International ETF	Fidelity Money Market Government Portfolio	17,779,197	-	-	-	17,779,197

At October 31, 2024, each Fund had loaned securities and received cash collateral for the loan. This cash was invested in the Fidelity Money Market Government Portfolio as shown in each Fund's Schedule of Investments. The Funds receive compensation relating to the lending of the Funds' securities as reflected in the Statements of Operations. The fair value of the securities loaned for the Funds totaled \$209,648,376, \$16,966,434, and \$17,352,747 for the Main Sector Rotation ETF, Main Thematic Innovation ETF, and Main International ETF, respectively, at October 31, 2024. The securities loaned are noted in each Fund's Schedule of Investments. The fair value of the "Securities Lending Collateral" in each Fund's Schedule of Investments includes only cash collateral received and reinvested that totaled \$219,321,898, \$18,504,107, and \$17,779,197 for the Main Sector Rotation ETF, and Main International ETF, respectively, at October 31, 2024. These amounts are offset by a liability recorded as "Securities lending collateral payable upon return" as shown in the Statements of Assets and Liabilities.

9. DERIVATIVE TRANSACTIONS

As of October 31, 2024 the Main Sector Rotation ETF did not invest in derivatives.

The following is a summary of the effect of derivative instruments on the Main Sector Rotation ETF's Statement of Operations for the year ended October 31, 2024.

			Net			
	Net	Change in Unrealized Depreciation				
	Realized Gain					
Contract Type/Primary Risk Exposure	 on Options Written		on Options Written			
Equity Contract/Equity Price Risk	\$ 1,850,099	\$	(3,757,139)			

NOTES TO FINANCIAL STATEMENTS (Continued)

October 31, 2024

The average quarterly notional value of derivative instruments outstanding during the year ended October 31, 2024, was \$160,540,625.

As of October 31, 2024, the Main Sector Rotation ETF had \$1,997 in cash held for collateral at the broker and \$0 in cash held for collateral at the custodian for options as shown in the Statement of Assets and Liabilities. As of October 31, 2024, there were securities held as collateral for options with a fair value of \$163,611,900.

10. INVESTMENTS IN AFFILIATED INVESTMENT COMPANIES

An affiliated company is a company in which a Fund has ownership of at least 5% of the voting securities. Companies that are affiliates at October 31, 2024 are noted in the Fund's Schedule of Investments. Transactions during the period with the companies that are affiliated or were affiliates at the beginning of the year are as follows:

Main Thematic Innovation ETF

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of Main Sector Rotation ETF, Main Thematic Innovation ETF, and Main International ETF and Board of Trustees of Northern Lights Fund Trust IV

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities, including the schedules of investments, of Main Sector Rotation ETF, Main Thematic Innovation ETF, and Main International ETF (the "Funds"), each a series of Northern Lights Fund Trust IV, as of October 31, 2024, the related statements of operations, changes in net assets, and the financial highlights for each of the periods indicated below, and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position of each of the Funds as of October 31, 2024, the results of their operations, the changes in net assets, and the financial highlights for each of the States of America.

Basis for Opinion

These financial statements are the responsibility of the Funds' management. Our responsibility is to express an opinion on the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Funds in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement whether due to error or fraud.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of October 31, 2024, by correspondence with the custodian and brokers; when replies were not received from brokers, we performed other auditing procedures. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

We have served as the auditor of one or more investment companies with a related advisor since 2015.

MAIN ETFS SUPPLEMENTAL INFORMATION (Unaudited) October 31, 2024

Renewal of the Investment Advisory Agreement with Main Management ETF Advisors, LLC

In connection with the meeting of the Board of Trustees (the "Board") of Northern Lights Fund Trust IV (the "Trust") held on July 26, 2024 (the "Meeting"), the Board, including a majority of the Trustees who are not "interested persons" as that term is defined in the Investment Company Act of 1940, as amended, discussed the renewal of an investment advisory agreement (the "MMEA Advisory Agreement") between Main Management ETF Advisors, LLC ("MMEA") and the Trust, with respect to Main International ETF ("Main IE"), Main Sector Rotation ETF ("Main SR") and Main Thematic Innovation ETF ("Main TI") (together the "Main ETFs"). In considering the renewal of the MMEA Advisory Agreement, the Board received materials specifically relating to the MMEA Advisory Agreement.

The Board reviewed and discussed the materials that were provided in advance of the Meeting and deliberated on the renewal of the MMEA Advisory Agreement. The Board relied upon the advice of independent legal counsel and its own business judgment in determining the material factors to be considered in evaluating the MMEA Advisory Agreement on behalf of the Main ETFs and the weight to be given to each factor considered. The conclusions reached by the Board were based on a comprehensive evaluation of all of the information provided and were not the result of any one factor. Moreover, each Trustee may have afforded different weight to the various factors in reaching his conclusions with respect to the renewal of the MMEA Advisory Agreement.

<u>Nature, Extent and Quality of Services</u>. The Board reviewed the responsibilities and business experience of the key professionals at MMEA that were providing advisory services to the Main IE, Main SR and Main TI and noted that each had extensive experience in the industry, as well as the firm. The Board discussed the investment advisory services of MMEA, which included research, analysis, compliance and operation services. The Board acknowledged that MMEA had an investment committee to execute decisions based on internal and external research and trading information. The Board noted that MMEA engaged outside compliance counsel to assist the internal chief compliance officer in providing ongoing compliance and oversight. The Board reviewed MMEA's procedures for monitoring compliance, maintaining cybersecurity protocols and resiliency, noting that MMEA has not reported and compliance issues nor any cybersecurity incidents in the past year. The Board further noted that there have been no SEC or regulatory examinations or investigations nor any material litigation or administrative actions reported. The Board concluded that it could expect MMEA to continue providing high quality services to each of the Main IE, Main SR and Main TI and its shareholders.

Performance.

Main IE—The Board observed that Main IE outperformed its benchmark, MSCI ACWI ex USA Net Index, peer group median and Morningstar category median for the 1-year period ended April 30, 2024, with net returns of 10.27%. The Board further observed that Main IE trailed the Morningstar category median since inception but outperformed its peer group median and benchmark during the same period. The Board concluded that Main IE's performance was acceptable.

Main SR—The Board noted that Main SR's net returns of 18.66% was below that of its benchmark, S&P 500 Total Return Index, and peer group and Morningstar category medians of 22.66%, 19.16% and 19.99%, respectively, for the 1-year period ended April 30, 2024. The Board further noted that Main SR underperformed the benchmark for the 3-year, 5-year and since inception periods but outperformed the peer group median for all and the Morningstar category median for the 3-year and 5-year periods. The Board acknowledged MMEA's explanation that the underperformance was a result of the benchmark remaining concentrated with funds of the top names within the financial industry. The Board concluded that Main SR's performance was acceptable.

Main TI—The Board noted that Main TI outperformed its benchmark, the MSCI AC World Index, Morningstar category and peer group median for the 1-year period ended April 30, 2024 with net returns of 18.94%. The Board further noted that Main TI underperformed its benchmark, Morningstar category median and peer group median for the 3-year and since inception periods. The Board reviewed MMEA's explanation that the positive momentum for the thematic strategy began in 2023 and the growth space benefitted from the anticipated interest rate cuts. The Board concluded that Main TI's performance was acceptable.

MAIN ETFS SUPPLEMENTAL INFORMATION (Unaudited) (Continued) October 31, 2024

Fees and Expenses.

Main IE—The Board noted that Main IE's advisory fee of 0.55% was slightly higher than the peer group average of 0.54% and was on par with the peer group median. The Board further noted that the advisory fee was higher than the Morningstar category median and average but lower than the high of 0.83%. The Board observed that Main IE's net expense ratio of 0.64% was higher than the medians of its peer group and Morningstar category but lower than the highs of each. The Board noted MMEA's intent to renew the expense limitation agreement. The Board determined that MMEA's advisory fee for Main IE was not unreasonable.

Main SR—The Board observed Main SR's advisory fee of 0.50% and net expense ratio of 0.57% was below its peer group and Morningstar category advisory fee averages of 0.58% and 0.57%, respectively, and net expense ratio averages of 0.65% and 0.58%, respectively. The Board determined that MMEA's advisory fee for Main SR was not unreasonable.

Main TI—The Board noted that the 0.65% advisory fee for Main TI was below the peer group median and average of 0.68% and 0.70%, respectively, and on par with the Morningstar category average and median. The Board observed that Main TI's net expense ratio of 0.94% was above the Morningstar category and peer group median and averages but below the highs of each. The Board determined that MMEA's advisory fee for Main TI was not unreasonable.

<u>Profitability</u>. The Board reviewed the profitability analysis provided by MMEA for each of Main IE, Main SR and Main TI. The Board observed that MMEA was earning a reasonable profit from each of Main IE, Main SR and Main TI. The Board determined that excessive profitability was not an issue for MMEA with respect to Main IE, Main SR or Main TI at this time.

<u>Economies of Scale</u>. The Board considered whether economies of scale had been reached with respect to the management of Main IE, Main SR and Main TI. The Board noted that MMEA had indicated a willingness to evaluate the appropriateness of breakpoints at higher asset levels. The Board agreed to monitor and revisit the issue at the appropriate time.

<u>Conclusion</u>. Having requested such information from MMEA as the Board believed to be reasonably necessary to evaluate the terms of the advisory agreement, and with the advice of independent counsel, the Board determined that renewal of the advisory agreement with MMEA on behalf of Main IE, Main SR and Main TI was in the best interests of each and its shareholders.
